

Green Office Partner, headquartered in Chicago, with satellite offices in Los Angeles and Kansas City, is a national boutique provider of managed print services, intelligent process automation and document management consulting.

Specializing in multi-location, enterprise environments, for national and regional organizations, offering a single platform and point of contact to manage all document workflow needs.

About Us

A photograph of an office interior. In the foreground, there are cubicles with white desks and green partitions. On a desk, there is a computer monitor, a keyboard, a mouse, and some papers. In the background, there are several dark-colored doors and a large, silver, cylindrical ductwork system hanging from the ceiling. The ceiling has exposed metal trusses and fluorescent lights. The overall lighting is bright and modern.

*From Slinging Toner to
The Nation's Premier Managed
Print Service and Document
Technology Provider...*

The Green Office Partner Story:

In 2004, brothers Chris and Todd Gallagher began their entrepreneurial journey together, leaving successful careers in politics and technology, to develop the Chicagoland market for the international toner re-manufacturer and retailer, Cartridge World.

By 2006, after opening retail stores across the Chicagoland, the Gallagher Brothers had developed the top grossing Cartridge World

territory in the US, a title they would hold through 2011. Their secret to success was simple: A Client-First White Glove Customer Service Experience.

In 2009, the Brothers, while continuing to expand their "toner empire" with business clients throughout Chicago, began to meet potential clients who were under direct contract with major manufacturers, like Canon or Xerox, to manage all of their printers and copiers under a service offering called "Managed Print Services". These potential clients liked the MPS concept, but all had one thing in common.... they were completely unhappy and frustrated with the customer service from the major manufactures. It was common to hear... "I'm treated like a number, not a client." Since no one knows White Glove Customer Service like the Gallagher's. the Brothers knew they could do it better and by 2011 they were ready to make it happen!

manufactures. It was common to hear...
"I'm treated like a number, not a client."
Since no one knows White Glove
Customer Service like the Gallagher's, the
Brothers knew they could do it better and
by 2011 they were ready to make it
happen!

At the end of 2011, the Gallagher Brothers
sold all of their stores and Cartridge World
territory to become singularly focused on
becoming the Nation's Premier Managed
Print Service and Document Technology
Provider.

After recognizing the need in the office
technology industry for a "national
boutique provider" experience that
delivered major manufacturer platforms,
without the pain points of dealing directly
with the major manufacturers, Green
Office Partner was officially launched in
2012. Since launching, Green Office
Partner has become one of the largest,
independent, Xerox (Master Elite) and HP
partners in the country and named to the
Inc. 5000 "Fastest Growing Private
Companies in America"!

Green Office Partner, still headquartered
in Chicago, with satellite offices in Los
Angeles and Kansas City, is a national
boutique provider of Managed Print
Services, Intelligent Process Automation
and Document Management Consulting.
Specializing in multi-location, enterprise
environments, for national and regional
organizations, offering a single platform
and point of contact to manage all
document workflow needs.

Green Office Partner's mission continues
to be the nation's premier managed print
service and document technology
provider. The approach is open, honest,
and flexible. The goal is to be a true
extension of their clients' teams! Green
Office Partner's positive culture and
client-focused team is dedicated to
growth by forming true partnerships, in
which they provide value and innovations
that increase the client's ability to achieve
their business goals.v

Company Testimonials

“ We can focus more on IT issues, user needs and application solutions now that Green Office Partner has reduced our costs and is managing our printer fleet.

Paul Fedel

Divisional IT Director, Fletcher Jones

“ I used to have an IT guy running around all the time fixing printers and calling in service techs who would maybe show up and maybe not show up. That just doesn't happen anymore. I can't remember the last time I had a printer in the office that didn't work, it's just a non-issue

Jason Scher

Chief Operating Officer, Vosges

UNITED WHOLESALE MORTGAGE

“ Green Office Partner has not let us down any step of the way. They've grown with us and our business because they've taken the time to invest in understanding who we are and what our business is.

Jason Bressler

Chief Technology Officer, United Wholesale Mortgage

Our Awards and Accolades

In 2023, 2024 & 2025 Green Office Partner was ranked as the #1 Best Place to Work by Crain's Chicago Business.

In 2024 & 2025, Green Office Partner was ranked as the #1 Best Place to Work by Chicago Sun Times as well!

Our employees have always been at the top of our priorities, and we were honored by this prestigious award. We will continue seeking new ways to make Green Office Partner a supportive and welcoming work environment for everyone.

“ Our growth is the result of our focus on our culture and our world-class employees.

Chris Gallagher

Co-Founder of Green Office Partner

Green Office Partner has been recognized as one of the fastest-growing private companies in the United States, making the Inc 5000 list. We attribute our success to our best-in-class customer service and the loyal client base we've worked tirelessly to cultivate.

“ Our expanded world-class team is positioned better than ever to deliver value, efficiencies, tools and innovations that increase our client's ability to achieve their business goals.

Todd Gallagher
