Book Copying in a Hurry

While automating library account creation

Business Goals

The **Book2Go App** is perfect for saving time while scanning documents **WITHOUT authentication**. In public facilities like **libraries, schools** and also in **companies as a guest-solution**, the **Book2Go App** allows everyone to digitize and receive documents without administrative efforts for the institutions.
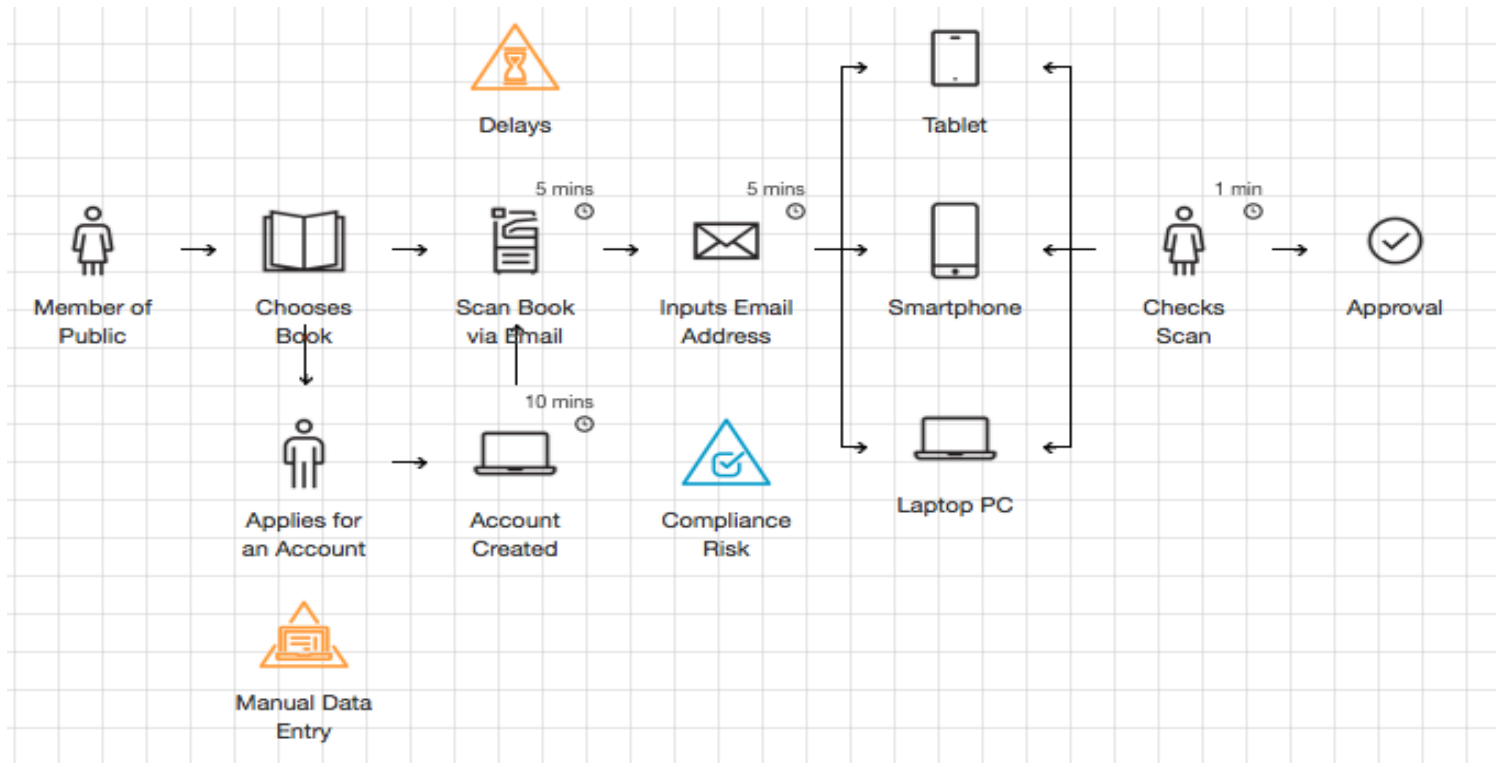

Scanning instead of copying also saves paper, toner and thus a lot of money.

Challenges

In schools, universities and also in normal office life it is often the case that something has to be read up in a book or only a small extract from a book is needed. Borrowing and transporting books can be very annoying. In addition, the book has to be returned after a certain period of time, although it may not have been finished yet. With the **Book2Go App**, this procedure has finally come to an end.

Delays

5 mins

Member of Public → Chooses Book → Scan Book via Email → Inputs Email Address

5 mins

Tablet

Smartphone

1 min

Checks Scan → Approval

Applies for an Account → Account Created

10 mins

Compliance Risk

Laptop PC

Manual Data Entry

Green Office PARTNER   xerox

AFTER

Removes manual entry of email address

No account opening required

| Visitor / Student | → | Chooses Book | → | ConnectKey MFP | → | Selects Book2GO-App (10 secs) | → | Scans QRCode on Display (10 secs) | ← | Tablet / Smartphone | → | Checks Scan (1 min) | → | Approval |

Streamlined Process | Improved Compliance | More Speed
