# Scanning Made Simple

## Workflow efficiency in a few simple steps
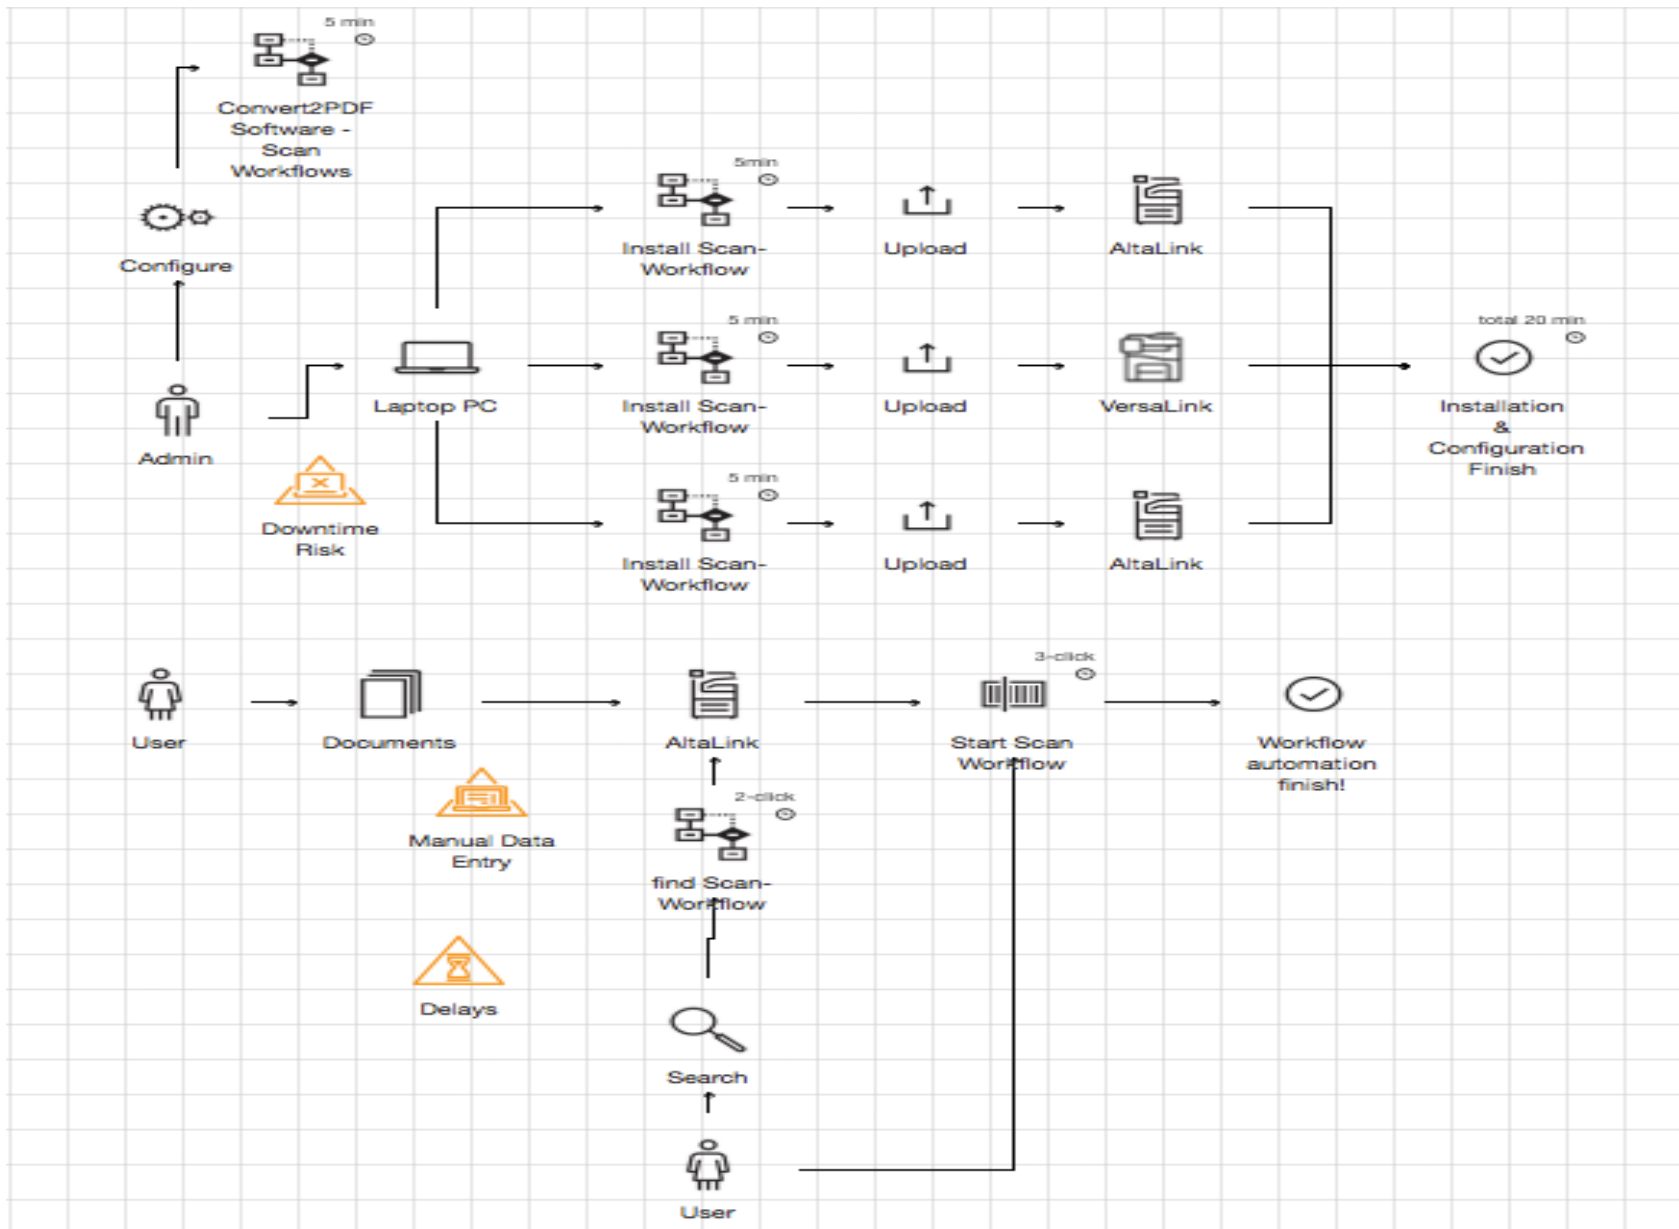

### Business Goals

**Convert2PDF App** of IT SCom is one of the most used and powerful Scan-Workflow solutions in Europe. With our **Convert2PDF App** for Xerox devices, there is now the perfect interface to make the scanning process even more performant and easy to handle. Administrators and user will love this app.

### Challenges

At the moment the administrators of the **Convert2PDF App** software as well as the users of the multifunction device, the management and handling of the scan profiles is cumbersome because the interface was missing so far.

**Financial Savings**

With the implementation of the **Convert2PDF App** Solution the scan workflows are much more comfortable and reduced in time efforts.

Significantly more time for customers and new business goals thanks to an app that makes so much easier in everyday business. Reduce administrative costs and at the same time minimize errors.

Let's take the example from above:

**Administrative View:**

3 scan workflows on 10 devices:  Only the three scan-workflows in the **Convert2PDF App** have to be setup.

**User View:**

Thanks to the fast-scan option the user will start the process after 2 -Clicks instead of 3-Clicks.

|  | **Before** | **After** |
|---|---|---|
| **Admin: Scan-workflows manually** | 33 installations | 3 installations |
| **User: Clicks to start scan-workflow** | 3 clicks | 2 clicks |
